## **POLICY**

Cumberland Healthcare recognizes that certain individuals are unable to pay entirely, or in part, for services provided by the institution. It is part of our mission to provide health services, and support for the communities in our service area. The purpose of this policy is to assist those individuals who are unable to pay for services provided. The determination to provide charitable services will be made, when possible, before providing services. However, if complete information on the patient's insurance or financial situation is unavailable, not valid, or if the patient's financial condition changes, the designation as Community Care may be made after billing for those services. All patients seeking healthcare services at Cumberland Memorial Hospital are assured that they will be served regardless of ability to pay. No one is refused service because of lack of financial means to pay.

## **DEFINITION**

"Uncompensated health care services" are defined as bad debt and Financial Assistance.

"Bad Debt" means claims arising from rendering patient care services that the facility using a sound credit and collection policy, determines to be uncollectible. When a guarantor has the ability to pay but will not, the account shall be classified as bad debt. Bad debt does not include Financial Assistance or government allowances.

"Financial Assistance" means health care services provided to a patient who is not eligible

for public programs and who, after an evaluation of the patient's application is determined to be unable to pay based on the policy. Financial Assistance does not include bad debts or government allowances.

"Income" means all salaries, wages, pensions, annuities, veteran's benefits, social security payments, recurrent insurance payments, unemployment or workers compensation payments, child support, alimony, interest, rental income, royalties, estate or trust income, tax refunds, compensation for injury claims, business net income plus depreciation, and income from services performed. "Gross Charges" is the total charges at Cumberland Healthcare's full established rates for the patient care services before deductions from revenue are applied

"Amounts Generally Billed (AGB)" No person eligible for financial assistance under the FAP will be charged more medically necessary care than amounts generally billed (AGB) to individuals who have insurance covering such care. Cumberland Healthcare determines AGB based on all claims paid in full to Cumberland Healthcare by Medicare and private health insurers (including payments by Medicare beneficiaries or insured individuals themselves), over a 12-month period, divided by the associated gross charge for those claims.
